Does the client have <u>individual</u> insurance? Or, can the client get insurance through an <u>employer</u> or a spouse's employer that ...

- Is defined as affordable? (costs less than 9.56% of household income)
- Meets ACA "minimum value" requirements? (employers must notify employees whether plans meet these requirements)

A client with <u>individual</u> insurance may stay on his/her plan or change to a Marketplace plan, which may allow for cost savings via tax credits.

A client with employer insurance may stay on his/her employer's plan or change to a Marketplace plan, but will not be eligible for tax credits.

Consider the affordability of each health insurance option.

Continue additional HIV (care completion) services provided by RWHAP.

Note: Eligibility should be re-assessed if the client has a qualifying life event (for example lost coverage; got married; had or adopted a child; gained legal status or status as member of an Indian tribe).

* Contact your state Medicaid program for information on Medicaid income limits, definitions of marriage used in the state, and safety-net programs available for those who don't qualify for Medicaid. Contact information for state Medicaid agencies can be found at Healthcare.gov, searching for "Do I qualify for Medicaid" and entering your state in the drop-down box at the bottom of the page.
