

# LOCAL HEALTH DEPARTMENT DISEASE INVESTIGATION STEPS

NC REPORTABLE DISEASE/CONDITION	NC DISEASE CODE	INFECTIOUS AGENT (S)
<b>EHRlichiosis, HGA (HUMAN GRANULOCYtic ANAPLASMOSIS)</b>	<b>571</b>	<b><i>Anaplasma phagocytophilum</i></b>
<b>PREPARING FOR INVESTIGATION</b>		
<b>KNOW THE DISEASE/CONDITION</b>	<ul style="list-style-type: none"> <li>• Read about Ehrlichiosis in the CD Manual.</li> <li>• See the case definition for Ehrlichiosis in the CD Manual.</li> <li>• Study APHA <i>Control of Communicable Diseases Manual</i>, 19<sup>th</sup> ed., pp 212 - 215.</li> <li>• Refer to CDC MMWR: Diagnosis and Management of Tickborne Rickettsial Diseases: Rocky Mountain Spotted Fever, Ehrlichiosis, and Anaplasmosis – United States. March 31, 2006; 55 (RR04). Available from: <a href="http://www.cdc.gov/mmwr/preview/mmwrhtml/rr5504a1.htm">http://www.cdc.gov/mmwr/preview/mmwrhtml/rr5504a1.htm</a></li> <li>• Print and review reporting forms:  <i>Part 1: Confidential Disease Report (DHHS 2124)</i> <i>Part 2: Ehrlichiosis, HGA (DHHS/EPI #571)</i></li> </ul>	
<b>CONDUCTING INVESTIGATION</b>		
<b>COLLECT CLINICAL INFORMATION</b>	<ul style="list-style-type: none"> <li>• If patient hospitalized for this disease, obtain medical record (admission note, progress note, other lab report(s), and discharge summary).</li> <li>• Obtain healthcare provider clinical notes from date(s) of service for this disease/condition.</li> <li>• Look for evidence in the medical record that supports clinical findings described in the case definition.</li> </ul>	
<b>REVIEW LABORATORY INFORMATION</b>	<ul style="list-style-type: none"> <li>• Review laboratory report(s) specific to this disease.</li> <li>• Evaluate laboratory results to determine if requirements of the case definition are satisfied.</li> <li>• Contact healthcare provider if further testing of the patient is indicated.</li> </ul>	
<b>APPLY THE CASE DEFINITION</b>	<ul style="list-style-type: none"> <li>• Use the case definition to determine if the clinical and laboratory findings meet the case definition criteria.</li> <li>• <b>Reportable cases of this disease must include fever and at least one other clinically compatible symptom. The decision to report should not be made solely on the basis of laboratory findings.</b></li> </ul>	

<b>IMPLEMENTING CONTROL MEASURES</b>	
<b>ATTEMPT TO IDENTIFY SOURCE OF EXPOSURE</b>	<ul style="list-style-type: none"> <li>Review clinical records for potential source(s) of exposure.</li> <li>If probable source of exposure is not evident in clinical information, interview patient to obtain additional information.</li> </ul>
<b>IMPLEMENT CONTROL MEASURES TO PREVENT DISEASE AND ADDITIONAL EXPOSURES</b>	<ul style="list-style-type: none"> <li>Use the CDC website <a href="http://www.cdc.gov">www.cdc.gov</a> to teach at risk people about tick-borne disease and methods of prevention.</li> </ul>
<b>REPORTING INVESTIGATION</b>	
<b>REPORT TO NC COMMUNICABLE DISEASE BRANCH (CD)</b>	<ul style="list-style-type: none"> <li>Enter Part 1 and Part 2 Communicable Disease Reports into NC EDSS as a new event, or update the existing event if already entered.</li> <li>Assign event to State Disease Registrar when case investigation complete.</li> <li>Do an "Event_Print" in NC EDSS after assigning to the state. Keep for one year along with any additional notes. Maintain as a surveillance file, not a medical record.</li> </ul>
<b>SPECIAL CONSIDERATIONS</b>	
<b>STATE LABORATORY OF PUBLIC HEALTH (SLPH) TESTING</b>	<ul style="list-style-type: none"> <li>Consider verifying the laboratory test results by sending specimen(s) to the SLPH/CDC for reference testing. Preference is for paired sera with acute specimen obtained during the first 7-10 days of illness and a convalescent specimen obtained 2-4 weeks later.</li> </ul>
<b>RISK COMMUNICATION</b>	<ul style="list-style-type: none"> <li>Consider risk communication messages to public and health professionals during the beginning of "tick season."</li> </ul>
<b>ADDITIONAL INFORMATION</b>	<ul style="list-style-type: none"> <li>HGA can occur concurrently with other tick-borne diseases.</li> </ul>
