

Entering COVID-19 Lab Results

October 2022

Trainings: ncedsstrainings@dhhs.nc.gov
Helpdesk: NCEDSSHelpDesk@dhhs.nc.gov

Agenda

- New Person, New Event, New Lab?
- Searching
- What type of lab?
- Adding a lab result
 - Adding an Ag lab result
 - Adding a PCR lab result
- Administrative package
- Key Points

New Person, New Event, New Lab?

New Person, New Event, New Lab?

How do you decide where to enter your lab?

- **New Person** – you add a new person when you have searched and determined that no person matching your search criteria exists

- **New Event** – you add a new event when you search and determine that a person matching your criteria exists **AND**
 - They have a closed event

OR

 - They have an open event where the first positive lab's specimen collection date is > 90 days (before or after the lab you have)

- **New Lab** – add a new lab onto an existing event on an existing person when you confirm that the person matched your search criteria **AND**
 - They have an open event where the first positive lab's specimen collection date is \leq 90 days (before or after the lab you have)

Searching

Searching

- Always search before entering any information to ensure the person and/or lab is not already in NC COVID
 - Person Search 
 - Displays all PERSONS, regardless of the county groups(s) you see/are assigned to
 - This is the recommended search method
 - Event Search 
 - Only displays persons with disease EVENTS within the county group(s) the user has permission to see
- Search multiple ways before ruling out that the person does not exist

What type of lab?

What type of lab?

- PCR /NAA /RNA tests are classified as CONFIRMED events.
- Ag (Antigen) tests are classified as PROBABLE events.
- At Home tests (PCR or Ag) are classified as SUSPECT events.
- Antibody (AB or IgG) tests are currently not accepted as confirmation of **current** COVID infection and do not need to be entered, nor will they count towards a case if you see them on an imported lab result.

Adding a Lab Result

Adding a Lab Result

Once you have found an existing event or created a new event, you need to enter the lab result.

Labs

Administrative Package

Administrative Package – Disease Report Info section

The Disease Report Information section documents the ‘how’ and ‘when’ an event was created based on the information received – ALWAYS complete this section when creating a new event.

Disease Report Information	
## Initial Source of Report to Public Health	<input type="text"/>
## Date of Initial Report to Public Health (Required)	<input type="text" value="MM/DD/YYYY"/>
## Initial method of report	<input type="text"/>

- Initial Source of Report to Public Health – source of the information
 - Where did this lab come from?
- Date of Initial Report to Public Health (Required) – date the lab was called, faxed or received by mail:
 - What date was this lab received?
- Initial method of report – how this information was received:
 - How was the information provided to you?
 - DO NOT select ‘Electronic lab report (ELR)’ or ‘Electronic Case Report (eCR)’ as these are for documents that are electronically reported into the database

*Note: If you are adding a lab to an existing event, you do not complete this section

Administrative Package – Disease Report Info section

This is an example of a completed Disease Report Information section based off the previous PCR lab

Disease Report Information	
→ ## Initial Source of Report to Public Health	Laboratory
Laboratory name	Diatherix Eurofins - 601 Genome Way Suite 2100
→ ## Date of Initial Report to Public Health (Required)	04/08/2020
→ ## Initial method of report	Paper lab report

- Initial Source of Report to Public Health – Laboratory

- Laboratory name – Diatherix Eurofins

- Date of Initial Report to Public Health (Required) – 4/8/2020

Adm1n1strator	DIATHERIXffi-3	(3/31/2020 11:36:53 AM -0500)
---------------	--------------------------------	-------------------------------

- Initial method of report – Paper lab report

*Note: If you are adding a lab to an existing event, you do not complete this section

Administrative Package – Reporter Information section

The Reporter Information this section provides the 'who' and 'where' for the provider/facility reporting this case

Reporter Information	
Reporting Physician/Practice	<input type="text"/>
Contact Person/Title 	<input type="text"/>
Phone number	<input type="text"/>
Fax (area code):	<input type="text"/>
Health Care Provider for this disease (if not reporting physician)	<input type="text"/>
Provider Type	<input type="text" value="v"/>
Name of provider's practice or facility	<input type="text"/>
Telephone number for health care provider (area code):	<input type="text"/>
Fax number(area code):	<input type="text"/>
Name of person to contact if health care provider is unavailable	<input type="text"/>
Telephone number for alternate contact for health care provider	<input type="text"/>
Date report entered into system	<input type="text" value="09/15/2022"/>
Date identified as contact	<input type="text" value="MM/DD/YYYY"/> 

- If an LHD is the source of reporting, then you enter the LHD provider information here
- If you learned about the event from another provider/location fill in their information here
 - For At Home Tests – Document who reported the test. If the reporting source is a relative, you can add the source as an alternate contact in the Alternate Contact Information section of the Demographic Question Package

Administrative Package – Reporter Information section

Health Care Provider for this disease (if not reporting physician)	
Provider Type	▼
Name of provider's practice or facility	
Telephone number for health care provider (area code):	
Fax number(area code):	
Name of person to contact if health care provider is unavailable	
Telephone number for alternate contact for health care provider	
Date report entered into system	09/21/2022
Date identified as contact	MM/DD/YYYY 

- The important part of this section is who you would call if the patient data needs provider follow up

Administrative Package – NC County of Residence for Event

The NC County of Residence for the Event section required to be completed. This field determines the county to which the event is assigned.

NC County of Residence for the Event	
If a different county is investigating this event, the county of residence must share this event. If patient is not a NC resident, enter the NC investigating county here.	
## NC County of Residence for the Event	Mecklenburg County ▾

- If the address is entered or imported correctly, the county will be automatically assigned at event creation
- Always check against the patient's address to confirm

Administrative Package – Investigation Trail section

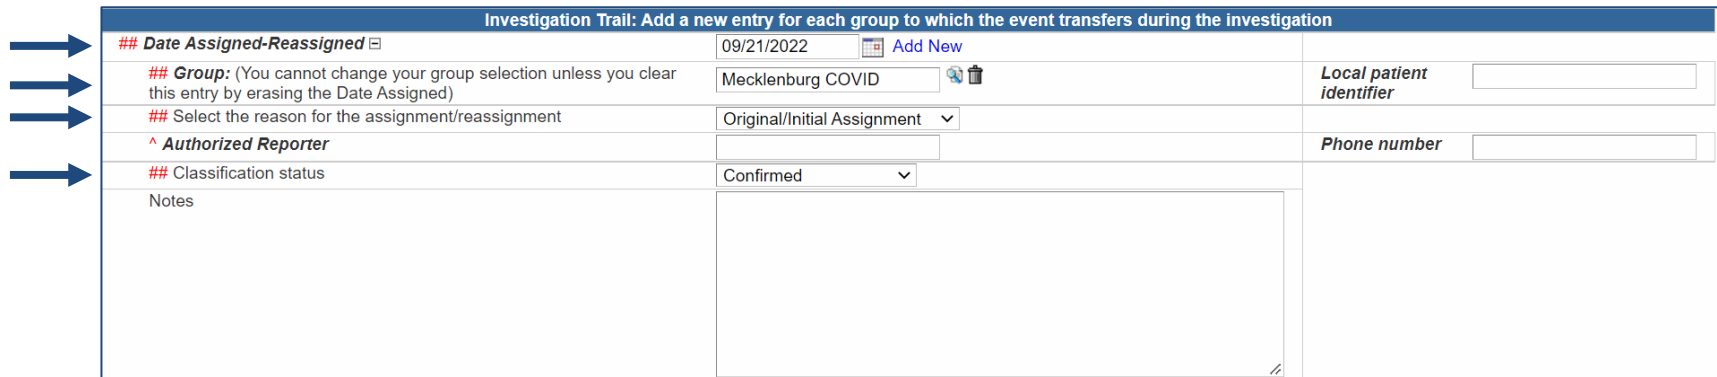

The Investigation Trail section must be completed in order to document the case status. Completing this section ensures the event will populate the appropriate workflows.

Investigation Trail: Add a new entry for each group to which the event transfers during the investigation		
## Date Assigned-Reassigned <input type="checkbox"/>	09/21/2022 <input type="text"/> <input type="button" value="Add New"/>	
## Group: (You cannot change your group selection unless you clear this entry by erasing the Date Assigned)	<input type="text"/>	Local patient identifier <input type="text"/>
## Select the reason for the assignment/reassignment	Original/Initial Assignment <input type="button" value="v"/>	Phone number <input type="text"/>
^ Authorized Reporter	<input type="text"/>	
## Classification status	Unspecified <input type="button" value="v"/>	
Notes	<input type="text"/>	

- 1st Block
 - If you created a new event, you need to complete this block
- If you are adding a lab to an already existing event, you need to make sure the most recent block has the correct classification status

Administrative Package – Investigation Trail section

This is an example of the 1st block completed in the Investigation Trail section based off the previous PCR lab

The screenshot shows a web form titled "Investigation Trail: Add a new entry for each group to which the event transfers during the investigation". The form contains several fields, with blue arrows pointing to the following ones:

Investigation Trail: Add a new entry for each group to which the event transfers during the investigation		
## Date Assigned-Reassigned	09/21/2022 <input type="button" value="Add New"/>	
## Group: (You cannot change your group selection unless you clear this entry by erasing the Date Assigned)	Mecklenburg COVID <input type="button" value="Add"/> <input type="button" value="Delete"/>	Local patient identifier <input type="text"/>
## Select the reason for the assignment/reassignment	Original/Initial Assignment	
^ Authorized Reporter	<input type="text"/>	Phone number <input type="text"/>
## Classification status	Confirmed	
Notes	<input type="text"/>	

- Date Assigned/Reassigned – date event was created
- Group – county group where event was created
- Select the reason for assignment/reassignment – Original/Initial Assignment
- Classification status – based off labs

*If you are adding a lab to an already existing event, you need to make sure the most recent block has the correct classification status

Administrative Package

Classification Status

- Lab Tests can be considered hierarchical:
 - Positive tests override Negative tests
 - Confirmed (Positive PCR/RNA/NAA) overrides Probable (Positive Antigen) and Suspect (Positive At Home Test)
 - Probable (Positive Antigen) overrides Suspect (Positive At Home Test)
- Does Not Meet Criteria if:
 - Person lives out of state (regardless of positive test and type)
 - There are only negative labs
 - The only positive tests are IgG or Ab Tests

Key Points

Key Points

- Always search prior to entering anything into the NC COVID database
- Identify what type of lab you have
 - Lab resulted Ag
 - Lab resulted PCR
 - At Home Test
- Make sure you have a collection date for the specimen as well as a positive/detected result
- Don't forget to verify the classification status in the Investigation Trail
