

**Introduction to Communicable Disease
Surveillance and Investigation in North Carolina**

**Unit Instructions
Sexually Transmitted Diseases**

Activity 1: Before listening to this lecture

Please read:

- Your agency policy and procedure for follow up of lab reports on infants with chlamydia or gonorrhea of the eye (ophthalmia neonatorum)
- Your agency policy and procedure for follow up of a positive gonorrhea and/or chlamydia lab report for a child under 12 years of age
- The case definitions for Pelvic Inflammatory Disease (PID) and Non-gonococcal Urethritis (NGU) (found in the NC Communicable Disease Manual)
- The case definitions for all other reportable bacterial STDs (found in the NC Communicable Disease Manual)

Activity 2: Listen to the DVD Lecture “Sexually Transmitted Diseases“

Activity 3: After listening to this lecture

Please locate and review the CDC Sexually Transmitted Disease Treatment Guidelines, 2010 at www.cdc.gov/std/treatment/2010/default.htm

Activity 4: After completing the above activities

Please go to SurveyMonkey and complete the quiz:
“Sexually Transmitted Diseases: Test Your Knowledge”
