Training Providers Offering Lead Renovator or Dust Sampling Technician Courses for Certification in North Carolina

For scheduling information on lead renovator or dust sampling technician courses taught **in** North Carolina, contact any of the accredited training providers listed below. The location of training is not limited to the physical address provided on this list. In addition to offering courses at their physical facility address, most of the listed training providers are also conducting courses at various locations throughout the state depending on local demand. Since all training providers may train anywhere state-wide, you will need to check with each training provider to determine the location, dates and cost of training.

The Health Hazards Control Unit (HHCU) also accepts courses taught **outside** North Carolina when the training provider and course(s) are accredited by either the US EPA or accredited by a state with a US EPA-authorized state program. For an updated listing of the US EPA-accredited training providers, go to the following website:

http://cfpub.epa.gov/flpp/searchrrp_training.htm

Training providers offering courses in North Carolina must comply with the N.C. General Statutes §130A-453.22 - 453.31, Certification and Accreditation of Lead-Based Paint Renovation Activities and 10A N.C.A.C. 41C .0900, Lead-Based Paint Hazard Management Program for Renovation, Repair and Painting Rules. All training providers and their lead renovator or dust sampling technician courses taught for certification purposes **in** North Carolina must be accredited by the HHCU prior to offering such courses. Those interested in conducting training in North Carolina should contact the HHCU for additional information, forms and applications.

If you have any questions regarding the current status of any training course or training provider on North Carolina's list or for more information regarding North Carolina's Lead-Based Paint Hazard Management Program for Renovation, Repair and Painting, please contact the Health Hazards Control Unit at (919) 707-5950 or visit our website at:
