

**Companies and corresponding comparison communities
selected for inclusion in the N.C. TDI Study**

Updated Jan. 16, 2008

Facility Name	Town & County	Average Annual TDI Emissions from 1998-2004 (lbs)	Average Annual non-TDI Diisocyanate Emissions from 1998-2004 (lbs)	Comparison Community & County
Hickory Springs	Conover (Catawba Co.)	549	0	Conover (Catawba Co.)
Carpenter Company	Conover (Catawba Co.)	192	0.3	Conover (Catawba Co.)
Olympic Products (formerly Vita Foam, Pleasant Garden)	Pleasant Garden, near Greensboro (Guilford Co.)	137	0	McLeansville (Guilford Co.)
Foamex LP	Cornelius (Mecklenburg Co.)	92	0.3	Huntersville (Mecklenburg Co.)
Prestige Fabricators	Asheboro (Randolph Co.)	83	0	Asheboro (Randolph Co.)

Note: Facilities and communities are listed in order of priority for this study. Flexible Foam in High Point, which was originally on the list of facilities to be studied, was removed in July due to the presence of other diisocyanate-emitting sources in the area.

FOR MAPS OF ALL STUDY AREAS, go to the N.C. DHHS TDI website (use the search function from the DHHS homepage, www.ncdhhs.gov ; or go directly to www.epi.state.nc.us/epi/oe/t/ti/maps.html .)
